PROFESSIONAL SUMMARY

Results-oriented Master's graduate and **Self-learning** Software Engineer with hands-on experience in **Product Development** and Full Stack Web Development. Proven ability to build end-to-end features using **Python (Django/Flask)** and **JavaScript (React/Node.js)**. Possesses strong **Interpersonal Skills** and **Effective Communication**, ensuring seamless collaboration in **Agile** environments. Adept at leveraging AI tools and continuously adapting to new technologies.

EDUCATION

Master's in Computer Application *Sep 2023 – Oct 2025*
Graphic Era Deemed University **CGPA:** 8.1/10
Relevant Coursework: DSA, AI & Machine Learning, Software Engineering, OS, DBMS, Cloud Computing.

TECHNICAL SKILLS

Languages & AI: JavaScript, Cpp, Machine Learning, Computer Vision, Artificial Intelligence (AI), AIML
Web Development: React.js, Node.js, Django, Flask, HTML5, CSS3, REST APIs
Databases & Tools: MongoDB, MySQL, Git, GitHub, VS Code, Postman
Methodologies: Agile Methodology, SDLC, Product Development, System Design, TDD, BDD

EXPERIENCE

Freelance QA Engineer - WestShemrock Bank (Third Party Contract) *Sept 2025 – Nov 2025*

- Conducted comprehensive end-to-end frontend testing for the bank's production Loan Lending Application, covering **100%** of critical user paths.
- Identified and documented **20+** critical bugs, collaborating directly with the backend development team to reduce bug fix time by **30%**.
- Analyzed the application's workflow to create detailed test cases, ensuring **zero** regression issues during deployment.

Data & Insights Developer Intern - Coding Ninjas *Feb 2025 – Aug 2025*

- Analyzed large-scale student data using **Excel** and **Python** to deliver actionable insights on engagement trends.
- Performed data cleaning and trend analysis to create dashboards that optimized sales performance strategies.
- Analyzed webinar data to optimize lead conversion, contributing to a confirmed **15% increase** in sales efficiency.

PROJECTS

Chef Claude (AI Recipe Generator) — *Source Code* *June 2024 – Oct 2024*

- Developed a **React**-based recipe generator using the **ClaudeAI API** to provide dynamic meal suggestions.
- Implemented modern **React Hooks** (e.g., useContext, useReducer) for robust state management and a responsive UI.

Blackjack Game — *Source Code* *Jan 2025 – Feb 2025*

- Developed an interactive Blackjack game using **Vanilla JS**, **HTML**, and **CSS**, implementing all core game logic.

Personal Portfolio Website — *Source Code* — *Live* *Mar 2025 – Apr 2025*

- Designed and built a personal portfolio from scratch using **Vanilla JS** and **HTML5** to showcase projects and skills.
- Implemented responsive design and DOM manipulation to ensure a fast, accessible user experience.

Additional Mini Projects

- **Wild Horizon API:** (*Source Code*) Built a RESTful API with **Node.js** and Express.js to serve travel data. *(Aug 2025)*
- **MyTravelJournal:** (*Source Code*) A **React** app demonstrating dynamic data rendering and component **props**. *(July 2025)*
- **Password Generator:** (*Source Code*) A simple **React** tool for creating secure, random passwords. *(July 2025)*
- **Space Exploration Landing Page:** (*Source Code*) Modern landing page built with HTML, CSS, and Vite. *(June 2025)*
- **Weather App:** (*Source Code*) React app fetching real-time weather data using OpenWeatherMap API. *(May 2025)*
- **Todo List App:** (*Source Code*) Vanilla JS app implementing CRUD functionality for tasks. *(Apr 2025)*
- **Currency Converter:** (*Source Code*) Built a tool to convert currencies in real-time using APIs. *(Mar 2025)*

ACHIEVEMENTS & CERTIFICATIONS

- Solved **150+** DSA problems on LeetCode & HackerRank, enhancing algorithmic problem-solving skills.
- **Certifications:** Data Structures (Strivers, Google); Full Stack Development (Scrimba); Node.js (PluralSite)
